

Press release

Strategic partnership between Odyssey Education and FPT Education to promote French schooling in Vietnam and throughout Asia

Paris, 28 May 2025

On the occasion of the State visit of the President of the French Republic to Vietnam on May 26 and 27, 2025, **Luc Chatel**, President of **Odyssey Education Group**, and **Dr. Le Truong Tung**, President of **FPT Education**, Vietnam's leading private educational organization, signed a **letter of intent** aimed at laying the foundation for a strategic partnership.

The objective of this agreement is to explore the creation of a **network of schools combining the academic excellence of Odyssey Education and the pedagogical innovation championed by FPT Education**.

This joint commitment by Odyssey Education and FPT Education is part of the broader effort to strengthen **Franco-Vietnamese cooperation** in the fields of education, youth, and Francophonie. FPT and the French Embassy in Vietnam had already signed a letter of intent in November 2024, expressing their mutual desire to expand French education in Vietnam.

"French education has a key role to play in the educational development of Southeast Asia, and Odyssey is actively pursuing its growth in this fast-expanding market. This emerging partnership with FPT Education, a major player in training and innovation, represents a significant milestone in our development in Vietnam," said **Luc Chatel**, President of Odyssey Education and former French Minister of National Education.

Odyssey Education is the leading French private group for international schooling. With 13 schools on three continents—including two in Vietnam—it educates more than 5,200 students and promotes a model of academic excellence that is multilingual, inclusive, and globally focused.

FPT Education, the educational branch of Vietnamese tech giant FPT Corporation, trains more than 100,000 students every year, with a strong focus on employability, technology, and internationalization.*
